The Old Milking Parlour, Peterborough, UK, PE8 5DY

## Employment:

### *WORTH*

- Site Reliability Engineer: March 2021
  - Maintaining and developing Terraform & Terragrunt code for multiple clients
  - Supporting production applications across AWS & GCP
    - EKS & ECS, GAE & GKE
  - Maintaining pipeline and build infrastructure in CodePipeline & Bamboo
  - Developing internal tooling and scripting to support infrastructure
  - Supporting clients in creating operational readiness & incident management processes

### *London Borough of Hackney*

- Senior Developer: September 2020 - March 2021
  - Working on API platform to deliver standardised endpoints integrating with a number of legacy backing services
  - Migrating legacy databases to Postgres on RDS
  - Managing AWS SSO & Control Tower, with identity federation across applications
  - Restructuring infrastructure in AWS and providing new CI/CD & Terraform pipelines with improved monitoring and alerting

### *Ministry of Justice - Judicial Appointments Commission*

- Junior Developer: June 2020 - August 2020
  - Working on improving DevOps
    - Planning CI/CD pipeline replacement
    - Exploring options for a Firebase migration
  - Delivering code to support business use of the application
  - Led requirements analysis, design and implementation of Qualifying Tests project
  - Carried out operational security review and worked to plan and implement required changes as part of ongoing penetration testing and Internal Audit reporting

### *Underland*

- Software Engineering Intern: Summer 2019
  - Python Severless integrating with RDS, S3, Cognito and externally with Adyen and Twilio
  - Carried out user research, designed and architected solutions and worked on a number of backend components such as payments, SMS and core systems

### *Monzo*

- Customer Operations: November 2017 - May 2018
- Second Line technical & payments, May 2018 - September 2018
  - Internal tooling in React & backend with Go
  - Traced bugs, patched code and added new features to our codebase
- Mastercard Fraud & Dispute Specialist, September 2018 - May 2020
  - Weekend disputes Expert
  - Mastercard Arbitration, Compliance and technical Case Filings
